

Curve TV Antenna for Over-the-Air Broadcasts

This curve TV antenna is designed to receive over-the-air broadcasts. Its curved surface broadens the signal reception area compared to regular flat panel antennas.

Product Overview

The curved design provides a broader signal reception area compared to standard flat panel antennas.

High-Performance Curved Indoor Antenna

This modern indoor TV antenna features a unique curved surface designed to broaden the area of signal reception compared to traditional flat panel antennas. It provides a reliable solution for receiving Full HD and digital TV signals, including local UHF and VHF broadcasts, for free. Its sleek, elegant design serves as a functional home accessory that can be either wall-mounted or placed on a tabletop to suit any interior decor.

Technical Specifications

The antenna features a detachable amplifier and built-in 4G LTE filtering for cleaner signal reception.

Signal Processing

- Detachable amplifier to enhance signals
- Integrated 4G LTE filter to block interference
- Optional connector support

Model Number

HDC-6

Signal Reception

Full HD, Digital TV, UHF, VHF

Physical Characteristics

Versatile installation options allow for sleek wall mounting or convenient tabletop placement.

Available Colors

Black • White

Dimensions

290 x 55 x 234 mm

Mounting Options

Wall Mount, Tabletop

Connectivity

Comprehensive connection options including USB, adapter, and coaxial power support.

Power Supply Methods

- Powered by AC Adapter
- Powered by USB
- Powered by Digital Receiver
- Powered by Coaxial Cable (for TVs with built-in tuners)

Logistics & Packaging

Standard Packaging

20 pieces per box

Quality & Compliance

Our products are manufactured under strict quality management systems and hold multiple design patents.

Product Certifications

CE • RoHS • RED • REACH • Prop65 • ISO 9001 • SGS • TUV
