

Customizable Backlit Computer Keyboard

This ergonomic keyboard features a customizable backlight for enhanced visibility and comfortable typing. It has a standard key layout, durable construction, and plug-and-play compatibility with most operating systems.

Product Overview

Ergonomic Backlit Keyboard

This ultra-thin, space-saving keyboard features a responsive key design and elegant LED backlighting for improved visibility in low-light environments. Engineered for versatility, it includes dedicated multimedia function keys and a specialized gaming mode that allows for Windows key locking. With its durable construction and intuitive brightness controls, this keyboard is an excellent choice for both professional and gaming setups.
