Product Overview

Versatile DC Lighting Solution

This DC LED bulb is engineered for direct connection to 12V power sources, making it an essential tool for off-grid applications, camping, and emergency lighting scenarios. Featuring integrated alligator clips for simple battery attachment and an inline on/off switch, it provides immediate and convenient illumination. The durable design includes a frosted white diffuser to ensure even light distribution, offering an energy-efficient lighting solution wherever standard AC power is unavailable.

Technical Specifications

Operating Voltage	12 V
Power Source	DC Battery
Connection Method	Alligator Clips
Control	Inline On/Off Switch
Wiring	Red Insulated Cable, Black Insulated Cable

Applications

Ideal Use Cases

- Camping
- Emergency Lighting
- Off-grid Applications
- Portable DC Lighting

Design Features

Diffuser	Frosted White
