Product Overview

Advanced Cooling Solution

This 14-inch misting fan utilizes high-efficiency DC motor technology to provide superior air circulation and cooling. Featuring speedless control for both wind speed and mist volume, it allows for precise customization of your environment. Designed for comfort and efficiency, this unit is an ideal choice for maintaining a refreshing indoor climate.

Technical Specifications

Fan Size	14 inch
Motor Type	DC Motor
Power Consumption	48 W

Control & Features

Control Method	Speedless control
Adjustable Parameters	Wind Speed, Mist Volume

Performance Metrics

Key Performance Indicators

48 W Power Rating	14 inch Fan Diameter
