Product Overview

Professional CCTV & Power Connector Kit

This comprehensive connector kit is designed for efficient, solder-free installation in surveillance and lighting projects. Featuring high-quality zinc alloy and nickel-plated construction, these connectors ensure reliable signal transmission and durability. The kit includes a versatile assortment of DC power and BNC connectors, making it an ideal solution for customizing cables for CCTV cameras and LED strips.

Package Contents

Kit Contents

- 10 x DC Male Connectors
- 10 x DC Female Connectors
- 10 x BNC Male Connectors
- 10 x BNC Female Connectors

Technical Specifications

DC Interface Size

5.5 mm

Outer Diameter

2.1 mm

Inner Diameter

Construction Materials

Zinc Alloy • Nickel-plated

Connector Types

DC Power, BNC Balun, Screw Terminal

Installation Details

Key Benefits

- Wear-resistant and corrosion-resistant
- Positive/negative clearly marked
- Smooth transmission for better audio/video quality
- Time-saving solder-free design

Installation Method

Screw terminal (No welding required)

Dimensions

Component Dimensions

Component	Length (approx)
Male DC Power Connector	36mm
Female DC Power Connector	39mm
Male BNC Balun Connector	40mm
Female BNC Balun Connector	38mm
