

Demolition Hammer

This heavy-duty demolition hammer is designed for breaking concrete and asphalt. It features a powerful motor and vibration reduction for user comfort during demanding applications.

Product Overview

Heavy-Duty Demolition Performance

This demolition hammer is engineered for high-impact tasks such as breaking concrete, asphalt, and other hard materials. It features a powerful motor and robust construction to withstand the most demanding construction and renovation applications. Integrated with a vibration reduction system, it ensures enhanced user comfort and increased productivity during prolonged use.
