

Desktop Computer Case

This enclosure protects the internal components of a desktop computer. It houses the motherboard, power supply, storage drives, and expansion cards.

Overview

Professional Desktop Chassis

This desktop computer case provides a robust and versatile foundation for building high-performance systems. Designed to house and protect critical components like motherboards, power supplies, and storage drives, it offers a balance of durability and functional design. With integrated cooling solutions, cable management options, and accessible front panel connectivity, this chassis is engineered to meet the diverse requirements of modern computing builds.

Design & Construction

Integrated Features

- Front Panel USB Connectors
- Audio Input/Output Ports
- Internal Drive Bays
- Advanced Cable Management
- Optimized Cooling Vents

Construction Materials

Steel • ABS Plastic • Tempered Glass

Form Factor Compatibility

ATX, Micro-ATX, Mini-ITX

Cooling & Performance

Thermal Management

120 mm

Fan Support Size

3 pcs

Fan Mounting Points
