

Detachable Gooseneck Low Flatbed Extendable Semi-Trailer

This heavy-duty semi-trailer is designed for transporting oversized or heavy cargo. It features a detachable gooseneck for easy loading and unloading, and can be configured as a box, cargo, or fence trailer.

Product Overview

Versatile Transport Solution

This heavy-duty semi-trailer is engineered for the efficient transport of oversized, heavy, and irregular cargo. Featuring a detachable gooseneck design, it allows for seamless front-loading, significantly simplifying the loading and unloading process. The extendable frame accommodates various cargo lengths, while the modular design enables configuration as a box, cargo, or fence trailer to suit specific logistical requirements.
