Product Overview

Professional Diamond Core Drill Bit Set

This professional-grade diamond core drill bit set is engineered for drilling clean, precise holes in challenging materials such as concrete, reinforced concrete, brick, marble, and granite. Featuring high-quality diamond segments, these bits deliver fast, efficient cutting performance and long-lasting durability for demanding construction tasks. The set comes complete in a rugged aluminum trolley case, ensuring organized storage and easy transportation for plumbers, electricians, and contractors.

Technical Specifications

Core Bit Diameters & Lengths

Component	Diameter (mm)	Length (mm)
Core Bit	127	150
Core Bit	117	150
Core Bit	65	150
Core Bit	52	150
Core Bit	42	150
Central Drill	10	200

Included Accessories

- SDS-10X200
- SDS-10X115
- HEX-12X200
- HEX-12X80
- Key (1&70)

Usage & Compatibility

Compatible Materials	Concrete, Reinforced Concrete, Brick, Marble, Granite
Drilling Application	Wet and dry drilling compatible (Note: Dry drilling is not recommended)

Certifications

Standards & Certifications

MPA Hannover • ISO 9001
