

Diamond Grinding Wheel for Glass Edge Grinding

Designed for use in domestic and imported glass linear edge grinding machines. They are used in king kong wheel coarse grinding after fine grinding.

Product Overview

Precision Diamond Grinding Solutions

These diamond grinding wheels are engineered for high-precision edge grinding on both domestic and imported linear edge grinding machines. Designed for durability and consistent material removal, they are suitable for coarse and fine grinding processes on optical glass, furniture stone, and crystal handicrafts. Their robust construction ensures long-lasting performance in demanding industrial environments.

Technical Specifications

Available Dimensions

Diameter (mm)	Width (mm)	Thickness (mm)
150	10	10
150	10	15
150	15	10

Grit Options	120#, 600#
--------------	------------

Applications

Compatible Materials

- Optical glass
- Crystal handicrafts
- Furniture stone

Machine Compatibility	Domestic and imported glass linear edge grinding machines
-----------------------	---

Product Features

Process Suitability

Coarse Grinding • Fine Grinding
