

Diamond LED String Lights

These low-voltage string lights feature diamond-shaped covers, each enclosing a warm white LED. The durable black cable and weatherproof connectors allow for versatile indoor and outdoor use.

Product Overview

Elegant Lighting Solution

These Diamond LED String Lights offer a sophisticated way to illuminate both indoor and outdoor spaces. Designed with geometrically shaped diamond covers, they diffuse warm white light evenly to create a welcoming atmosphere. The system is IP44 rated for weather resistance and features an extendable design, making it a versatile choice for patios, gardens, and decorative event lighting.
