Product Overview

High-Performance Diamond Cutting Solutions

These professional-grade diamond saw blades are engineered for efficiency, durability, and versatility across construction and masonry applications. Designed for use with angle grinders, they offer specialized cutting edges—including turbo rim and segmented designs—to ensure faster, smoother cuts on a variety of materials like tile and stone. Built for extended service life, these blades are an essential tool for demanding professional environments.

Technical Specifications

Available Sizes

- 7 inch (178 mm)
- 4 1/2 inch (115 mm)

Maximum Speed

13300 RPM

Max RPM

Blade Types Turbo Rim, Segmented

Arbor/Bore Size 22.23 mm

Compatibility & Usage

Tool Compatibility

Angle Grinders

Compatible Materials Tile, Stone
