

Diesel Generator Set, 10kW-2000kW

This diesel generator set provides power ranging from 10kW to 2000kW. It is designed for super silent operation and is suitable for continuous power supply and backup power solutions.

Overview

Industrial Power Generation Solution

This diesel generator set offers a versatile power output range from 10kW to 2000kW, engineered to meet diverse industrial energy requirements. Designed with a focus on operational efficiency, the unit features super silent technology, making it suitable for environments where noise reduction is critical. Its robust construction ensures reliable performance for both continuous power supply and essential backup power applications.

Performance

Power Output Range

10 kW

Minimum Output

2000 kW

Maximum Output

Operational Noise Level

63 dB

Features

Suitable Applications

- Industrial Facilities
- Commercial Backup
- Continuous Power Supply

Operational Mode

Continuous Power, Backup Power, Super Silent
