

Diesel Generator Set with Fuel Injection Pump

This heavy-duty diesel generator set is designed for demanding environments. It includes a fuel injection pump system for precise fuel delivery.

Product Overview

Marine Diesel Generator Set

This heavy-duty diesel generator set is designed for demanding marine and industrial power applications. Featuring a 650kW power output and a 720r/m rotational speed, this equipment is engineered to provide reliable electrical generation in challenging environments. The unit is currently available in used, good condition, suitable for immediate integration into existing marine systems.

Technical Specifications

Power Output

650 kW
Power

768 kVA
Apparent Power

Rotational Speed	720 r/m
Frequency	60 Hz
Engine Model Compatibility	5L23/30H

Inventory Details

Component Inventory

Component	Quantity
Diesel Generator Set (5L23/30H)	2
Fuel Injection Pump (S70MC)	5
Turning Engine (S60MC)	1
Turning Engine (UEC52LS)	1
Cylinder Cover (H-274)	2

Condition

Used • Good Condition

Manufacturing Year	2008
