

Diesel Power Generator

This diesel generator is engineered to deliver a consistent power supply across diverse operational environments. It features a resilient engine, a sturdy protective frame, and a simple control interface.

Overview

Reliable Diesel Power Generation

This diesel generator is engineered to deliver consistent and dependable power for a wide range of professional and residential applications. Featuring a robust 9.0HP engine and a heavy-duty open frame construction, it offers excellent durability and portability on the job site. With a dual starting system and versatile output options, it provides a practical solution for critical power needs.

Technical Specifications

Rated Voltage	230 V
Rated Frequency	50 Hz
Phase	Single

Performance Metrics

Power Output Metrics

5 kW Max Output	4.5 kW Rated Output
---------------------------	-------------------------------

Engine Details

Engine Power	9 HP
Rated Speed	3000 rpm

Operation

Starting System	Electric, Recoil
