Product Overview

Reliable Power Generation Solutions

This diesel generator set is engineered for consistent performance in both prime and standby power applications. Featuring a robust engine and high-efficiency alternator, the unit is designed for stability, vibration isolation, and ease of maintenance. Each generator undergoes rigorous testing, including load and overload trials, to ensure operational reliability upon delivery.

Technical Specifications

Voltage (50Hz)	380V, 400V, 415V, 220V, 230V, 240V
Voltage (60Hz)	220V, 380V, 416V, 440V, 480V, 110V, 208V

Quality Assurance

Pre-shipment Testing

- Minimum 4 hours total commission testing
- Idle load testing
- Full load testing
- 10% overload testing
- Noise level verification
- Control panel meter calibration
- Visual inspection of labeling and nameplate

Logistics & Warranty

Warranty Coverage

1 yr

Standard Warranty (Years)

1000 hrs

Standard Warranty Hours

15 mo

Alternator Warranty (Months)

1200 hrs

Alternator Warranty Hours

Packaging

Wooden Case • Plywood Case • Metal Case

Delivery Lead Time

Less than 25 working days after prepayment
