MODEL	KEYWORD
Small diesel power tiller	4310/4300/4315
Small diesel power tiller	4310/4300/4315
Starting method	Manual
Engine Model	180C2500
Transmission type	Full time Drive
Gear Shift	Standard Operated Control
Axle and frame	90°
Wheels	3rd and 4th axle (4x4) 800x 800mm
Weight	430-530kg
W. Wheel (mm)	800/750
Dimension (mm)	880*520*760

Main Features

1. Adopt 400-500 big walking wheels, match with KAMA diesel engines.
2. Use closed down-stage filter air intake for good filtration.
3. Fuel tank is raised and no residue when oil supply.
4. Optional electric start, lubrication method using pressure splash composite.
5. Isolated bumper for more secure protection.
6. Vertical axle, full gear drive. Especially suitable for terrain operations such as large soil resistance and field leveling.
