Overview

High-Performance Diesel Water Pump

The L150BE is a robust, self-priming diesel water pump engineered for high-volume water transfer in demanding environments. Featuring a powerful 10.2 hp diesel engine, this unit is designed for reliability and efficiency in applications such as irrigation, construction sites, and emergency water supply. Its durable construction and portable frame ensure it can withstand rigorous outdoor use while maintaining consistent flow rates.

Performance Metrics

Capacity

200 m³/h
Flow Capacity

15 m
Head

Suction & Priming

- Port Diameter: 150 mm
- Max. Suction Head: 7 m
- Self-priming Time: 220 s/4m

Engine Specifications

Engine Configuration

Parameter	Value
Engine Model	L718F
Continuous Output	10.2 hp
Displacement	718 cc
Engine Speed	3600 rpm

Physical Characteristics

Size & Weight

- Dimensions: 770 x 575 x 900 mm
- Net Weight: 138 kg

Usage Warnings

Outdoor Use Only • Hot Surface
