

Digital Air Fryer for Countertop Use

This air fryer is a kitchen appliance designed to cook food by circulating hot air. It features a digital display for temperature and timer settings, along with preset cooking modes.

Product Overview

Professional Countertop Air Fryer

This digital air fryer is designed for efficient, healthier cooking in professional or home kitchen environments. Featuring a sleek stainless steel panel and an intuitive LCD touch interface, it offers precise control over temperature and timing for consistent results. The 3.5L capacity and detachable basket system make it a versatile tool for frying, baking, and roasting with minimal oil.
