

Digital Air Fryer with Presets

This digital air fryer features a digital control panel with 8 preset programs and a 60-minute timer. It includes a detachable non-stick frying container and automatic power-off function for safety.

Overview

Healthy Cooking with Digital Precision

This Digital Air Fryer utilizes rapid air circulation technology to provide a healthier alternative to traditional frying, significantly reducing fat content while maintaining a crispy texture. The intuitive digital control panel features eight preset programs, making it simple to achieve professional results for a variety of dishes. Designed with safety and convenience in mind, it includes a non-stick detachable container and automatic shut-off functionality.
