Product Overview

Healthy and Efficient Cooking Solution

This Digital Air Fryer utilizes a rapid air circulation system to fry food faster while saving energy. It offers a healthier alternative to traditional frying, reducing fat consumption by up to 80% without sacrificing taste. Designed for modern kitchens, it features a sleek digital interface with precise controls and eight preset cooking recipes for maximum convenience.

Key Features

- Rapid air circulate system for faster cooking
- Healthy oil-free frying with 80% less fat
- Double protection circuits for safe monitoring
- Dishwasher-safe basket parts
- 3000-hour life test durability

Max Temperature

Technical Specifications

Technical Details

Parameter	Specification
Model No.	HF-2055TS
Power Supply (Option A)	110-127V~ 60Hz
Power Supply (Option B)	220-240V~ 50/60Hz
Temperature Range	80 -200 (180 ^F -400 ^F)
Timer Range	0 to 30 minutes
Heating Element	S/S 304

Safety & Construction

Safety Features

- Over-heat protection
- Cool-touch housing and handle
- Non-slip feet
- PP housing (heat resistant to 137°C)

Compliance & Quality

Product Certifications

CE, CB, GS, LFGB, RoHS, REACH, EMC, PAHs, ERP, UL, FDA

Operation

Control System

Digital interface with adjustable timer, temperature, and 8 cooking recipes.
