

Digital Alcohol Tester

This is a portable alcohol tester used to measure blood alcohol content. It features a digital display for easy reading and is suitable for personal use.

Product Overview

Professional Digital Alcohol Tester

This portable digital alcohol tester features an advanced semiconductor oxide sensor for reliable blood alcohol content measurements. Designed for convenience, it includes an integrated LCD display that functions as both a testing interface and a parking timer with alarm capabilities. With quick warm-up and response times, this device offers an efficient solution for monitoring alcohol levels.

Technical Specifications

Sensor Technology	Advanced semiconductor oxide alcohol sensor
Measurement Range	0.00%-0.19% BAC, 0.0-1.9 g/L, 0.00-0.95 mg/L BRAC
Test Accuracy	0.01% BAC (0.1 g/L or 0.05 mg/L BRAC)

Performance Metrics

Performance Metrics

<div style="border: 1px solid black; padding: 5px; display: inline-block; text-align: center;"> 30 s Warm-up Time </div> <div style="border: 1px solid black; padding: 5px; display: inline-block; text-align: center; margin-left: 20px;"> 5 s Response Time </div>	
Auto Power Off	1 min

Clock and Timer

Clock Accuracy	±2.0 seconds/day
----------------	------------------

Power and Battery

Power Requirements

- 2 x AAA alkaline batteries (for tester)
- 1 x AG13 cell battery (for clock)

Identification

Item Number	LD007-AD6-B
