Product Overview

Large LCD display and detailed feature specifications.

High-Performance Body Weighing Scale

This professional-grade body weighing scale features an extra-large LCD display designed for maximum readability and ease of use. Built with durability in mind, it utilizes 6mm tempered glass and a low center of gravity design to ensure safety and stability during operation. The unit is equipped with high-precision sensors and intelligent functions like auto-power-off, overload indication, and BMI calculation to support comprehensive health tracking.

Technical Specifications

Maximum Weight Capacity	250 kg
Measurement Increment	100 g
LCD Display Size	77x93 mm
Scale Dimensions	340x340x27 mm
Power Requirements	1 x CR2032 battery (included)

Features & Safety

Smart Functions

- Step-on technology
- Auto-power-off
- BMI calculation
- Overload indication
- Low battery indication

Safety Design

Fillet grinding, Low center of gravity, 6mm tempered glass
