

Digital Calipers and Height Gauges for Assembly Lines

Digital calipers and digital height gauges are used for precise measurement in assembly and production lines. The calipers and height gauges have a resolution of 0.01mm and varying measuring ranges.

Product Overview

Precision Measurement Solutions

These digital calipers and height gauges are engineered for high-precision measurement tasks in demanding assembly and production line environments. Featuring consistent 0.01mm resolution across all models, these tools ensure accuracy for quality control and manufacturing processes. The range includes versatile options for both linear caliper measurements and vertical height gauging.

Measurement Capabilities

Caliper Measuring Range

- 0-150mm
- 0-200mm
- 0-300mm
- 0-450mm
- 0-600mm
- 0-1000mm

Height Gauge Measuring Range

- 0-300mm
- 0-450mm
- 0-600mm
- 0-1000mm

Resolution

0.01 mm

Technical Specifications

Measurement Systems

Metric • Imperial

Model Specifications

Tool Type	Range	Resolution
Digital Caliper	0-150mm	0.01mm
Digital Caliper	0-200mm	0.01mm
Digital Caliper	0-300mm	0.01mm
Digital Height Gauge	0-300mm	0.01mm
Digital Height Gauge	0-450mm	0.01mm
Digital Height Gauge	0-600mm	0.01mm
Digital Height Gauge	0-1000mm	0.01mm

Available Tool Types

Digital Calipers, Digital Height Gauges
