

Digital Crane Scale with LED Display

This crane scale features easy operation and rugged construction. It has a capacity from 1t to 15t.

Product Overview

Industrial Digital Crane Scale

This general-purpose digital crane scale is engineered for rugged industrial environments, offering reliable and accurate weighing capabilities. Designed with an aluminum die-cast case, it provides durability while maintaining ease of operation. With a versatile capacity range and clear LED visibility, it is an essential tool for various lifting and weighing applications.

Technical Specifications

Capacity Range	1t to 15t
Display	5-digit 30mm LED display
Viewing Distance	25 m
Remote Control Distance	10 m
Battery Life	60 hours

Features

Key Features

- Rugged aluminum die-cast case
- Integrative load cell
- Linear calibration for improved precision
- Low power indication
- Overload warning
