

Digital Inverter Gasoline Engine Generator

This compact and lightweight digital inverter gasoline engine generator is designed for outdoor use. It operates at AC 230V-50Hz with a COP of 0.9kW and 3.9A, and provides a DC 12V/5A output.

Overview

Digital Inverter Technology for Reliable Power

The GI1000CF is a compact, high-efficiency digital inverter generator designed for clean and stable power delivery. Built with a 4-stroke OHV engine, it is ideal for outdoor applications requiring portability and quiet operation. The unit features advanced safety protections including overload and low oil alerts, ensuring dependable performance for professional and recreational users.
