

Digital Photo Display

This digital photo display allows users to showcase their favorite photos without printing. It is designed for displaying digital images in a slideshow format.

Product Overview

Modern Touch-Sensitive Control

This modern touch-sensitive light switch is designed for both residential and commercial applications, offering a sophisticated alternative to traditional mechanical switches. It features a sleek black glass panel with a responsive capacitive touch interface for effortless operation. The unit is designed for compatibility with standard wiring configurations and includes LED indicators for clear status visibility.
