Overview

Digital Portion Scale with Touchless Tare

This high-precision digital portion scale is designed for hygienic and efficient weighing in restaurants, food stores, and various industrial settings. It features an innovative photo-eye sensor for touchless tare operation, minimizing cross-contamination and enhancing food handling safety. Built with a robust aluminum understructure and stainless steel platter, the unit is integrated with RS232 and USB connectivity to streamline data transfer to electronic cash registers.

Technical Specifications

Load Cell	Single point aluminum load cell
System Resolution	Up to 1/3,000
Display	Large LCD with blue backlight, 15mm digits
Operating Temperature	-10°C to 40°C

Functionality

Supported Units

- kg
- lb
- g
- oz
- lb:oz

Available Functions

Weighing, Check-weighing, Preset Tare, Touchless Tare, Counting, Accumulation, Percentage weighing, Peak/Hold, GEO calibration

Connectivity & Power

Communication Ports	RS232, USB
Power Input	9V 600mA adapter or USB

Compliance & Certification

Approved Standards

CE • WEEE • UL • CUL • BS • VI Energy

Models & Dimensions

Capacity and Platform Matrix

Model	Platform Size
PSP-0610	10" x 6"
PSP-1010	10" x 10"
PSP-1214	14" x 12"
