

Digital Programmable Timer Switch

This digital programmable timer switch is designed for automated control of electrical appliances and devices. It features a digital display for easy time setting and programming, allowing users to schedule on/off cycles.

Product Overview

Automated Control Solution

This digital programmable timer switch is designed for precise automated control of electrical appliances and devices. It features an intuitive digital display for easy scheduling, supporting up to 8 ON/OFF cycles per day to optimize energy usage and security. With a built-in rechargeable battery and versatile programming options, it ensures reliable operation even during power interruptions.

Technical Specifications

Rated Current

16 A

Rated Current

Voltage & Frequency	230V~, 50Hz
Minimum Setting Time	1 min
Maximum Setting Time	7 days
Dimensions	80 x 77 x 78 mm

Features & Functionality

Programming

- 8 ON/OFF cycles per day
- 24-hour or AM/PM display
- Summer/Winter time adjustment
- Random function

Safety & Build	IP20 Rating, Children Protector, Grounded Pin
Backup Power	Yes
