Product Overview

Professional Performance Steam Station

This high-power 3000W steam station is engineered for professional garment care, offering consistent performance for various fabric types. With a robust 6.5 bar steam pressure and a continuous 260g/min steam boost, it effectively handles deep wrinkles on heavy-duty textiles. Designed for convenience and safety, the unit features a large 2.0L removable water tank for extended use and an automated self-maintenance system.

Performance Specifications

Rated Power	3000 W
Steam Pressure	6.5 bar
Steam Boost	260 g/min

Design and Utility

Convenience Features

- Removable water tank
- Carry lock for transport
- Integrated cord storage
- Smart steam technology

Water Tank Capacity	2 L
