

Digital Step Counter Pedometer

This digital pedometer accurately tracks steps taken. It features a clear LCD display for easy viewing of step count and time.

Product Overview

Compact Digital Step Counter

This digital pedometer is a compact and user-friendly fitness accessory designed to accurately track daily step counts. Featuring a clear, easy-to-read LCD display, it provides real-time monitoring of both your steps and the current time. Its sleek, rectangular design and intuitive interface with dedicated buttons make it an ideal tool for individuals looking to maintain an active lifestyle with simple, reliable tracking.
