

# Disposable Medical Face Mask - 3-Ply Protection

These disposable face masks are intended for single use by medical personnel. They provide a protective barrier for both patients receiving treatment and medical staff.

## ADDITIONAL IMAGES

## Product Overview

### 3-Ply Disposable Medical Face Mask

This non-sterile medical face mask is designed for use by medical personnel and related staff to provide essential protection for both patients and healthcare providers. Featuring a 3-ply protective structure with a Bacterial Filtration Efficiency (BFE) of 95%, it serves as a reliable barrier against airborne particles and droplets. The mask is designed for single-use applications and features comfortable earloops for secure adult fitment.
