

Disposable Vaginal Speculum

This disposable vaginal speculum is designed for gynecological examinations and procedures. It is constructed from clear, medical-grade plastic and features a smooth, ergonomic design with a secure locking mechanism.

Product Overview

Clinical Visualization and Comfort

Designed for clinical gynecological examinations, this disposable vaginal speculum provides practitioners with clear, unobstructed visualization. The instrument is crafted from high-quality medical-grade plastic, ensuring patient comfort through an ergonomic and smooth design profile. With a reliable locking mechanism for adjustable positioning, it offers the consistency required for diverse procedures while maintaining a high standard of infection control via its single-use construction.
