

# Double Door Chest Freezer

This double door chest freezer maximizes interior space. The large capacity design is suitable for cold storage, and the double top door reduces air leakage.

## Product Overview

### Professional Double Door Chest Freezer

This double-door chest freezer is designed for both commercial and household use, offering a versatile solution for frozen goods storage. Featuring an anti-condensation hollow glass door, it provides clear visibility while maintaining optimal thermal efficiency. The unit is built with high-density insulation and a secure magnetic seal system to ensure reliable performance and energy retention.

## Design & Construction

### Door System

- Anti-condensation hollow glass design
- Double-layer magnetic seal
- Removable door seal for cleaning
- Easy-close support mechanism

<b>Insulation Technology</b>	Ultra-high density porous foam with bubble-free dense layer
<b>Exterior Coating</b>	Advanced spray technology with strong adhesion and rust resistance

## Features

### Maintenance Features

Easy-Clean Seal • Rust Resistant

<b>Storage Options</b>	Adjustable Shelves, Combination Storage, Clear Display
