Product Overview

Optimized Cooling and Storage

This double-door refrigerator offers an efficient cooling solution designed for modern food preservation. Featuring adjustable shelving and a spacious freezer compartment, it provides flexible storage options tailored to diverse needs. Its energy-efficient design, combined with anti-bacterial technology, ensures both cost savings and long-lasting freshness for your stored items.

Technical Specifications

Model Number	BCD-185W
Refrigerator Capacity	85 L
Freezer Capacity	90 L
Voltage/Frequency	220V/50Hz or 110V/60Hz
Refrigerant Gas	R600a, R134a

Logistics and Dimensions

Packing Dimensions	500 x 500 x 1465 mm
Loading Capacity (40HQ)	160 PCS
Minimum Order Quantity	1*40HQ

Key Features

Key Features

- Optimized space usage via concentrated foaming techniques
- Low-noise operation with optimized cooling systems
- Anti-bacterial nanotechnology for extended food freshness
- Energy-efficient design to reduce operating costs
- Easy-clean coating for maintenance and fast cooling
- Customizable design options
