

Double-Sided Mounting Tape

Double-sided adhesive tape designed for various applications. It provides strong adhesion on both sides for secure bonding.

Overview

Versatile Double-Sided Bonding Solution

This double-sided adhesive tape is engineered for reliable performance across various mounting and bonding applications. Available in multiple widths and lengths, it provides strong adhesion on both sides to ensure a secure and lasting bond. Whether for individual use or bulk requirements, these configurations offer flexibility for professional and industrial projects.

Key Features

Core Benefits

- Strong double-sided adhesion
- Secure bonding for various surfaces
- Multiple size configurations available
- Available in multi-pack options
