

Double Sliding Door Beverage Refrigerator

This refrigerator utilizes a compressor cooling system and mechanical temperature control for efficient operation. It features adjustable level legs and a double sliding door, with the capacity to hold 200 bottles of 300ml beer.

Product Overview

Professional Beverage Storage Solution

The CF-258 double sliding door beverage refrigerator is engineered for optimal performance in both commercial and residential environments. Featuring an efficient compressor cooling system and an ultra-quiet design, it ensures your beverages are kept at the perfect temperature without noise disruption. The unit offers flexible storage solutions and adjustable leveling, making it a reliable choice for high-traffic retail or hospitality settings.
