Product Overview

Commercial Cold Drink Dispenser

This double-tank beverage dispenser is engineered for high-demand commercial environments, offering efficient cooling for juices, iced tea, and lemonade. Featuring two independent transparent tanks, it allows for the simultaneous serving of different beverages. The unit utilizes an energy-efficient, closed compressor system designed for quiet operation and consistent temperature equilibrium.

Technical Specifications

Power Consumption	280 W
Voltage	220-240V
Refrigerant Type	R134a
Noise Level	65 dB

Design & Capacity

Tank Capacity (per tank)	12 L
Number of Tanks	2
Construction Materials	Stainless Steel, Food-grade Polycarbonate

Key Features

Performance Highlights

2

Independent Tanks

65 dB

Max Noise

Cooling Technology

- Surround type stainless steel evaporator
- Fast refrigeration
- Equilibrium temperature control
- Energy-efficient closed compressor
