

Drawer Slides for Food Processing Machinery

These drawer slides are designed for machinery used in the food, beverage, and cereal industries. The slides feature durable metal construction and rollers for smooth operation.

Overview

Industrial Grade Drawer Slides

These heavy-duty drawer slides are precision-engineered for the demanding environments of the food, beverage, and cereal processing industries. Featuring a durable metal construction and integrated roller systems, they ensure smooth, reliable operation for industrial machinery drawers. The design includes multiple mounting points to facilitate secure and stable installation in high-use processing equipment.

Technical Details

Construction Material	Durable Metal
Movement Mechanism	Roller-based
Quantity per Set	4 pieces

Application

Installation Features

- Multiple mounting holes
- Secure attachment points
- Designed for industrial equipment

Suitable Industries	Food Processing, Beverage Production, Cereal Processing
