

# Drill Bit Re-Sharpener Machine

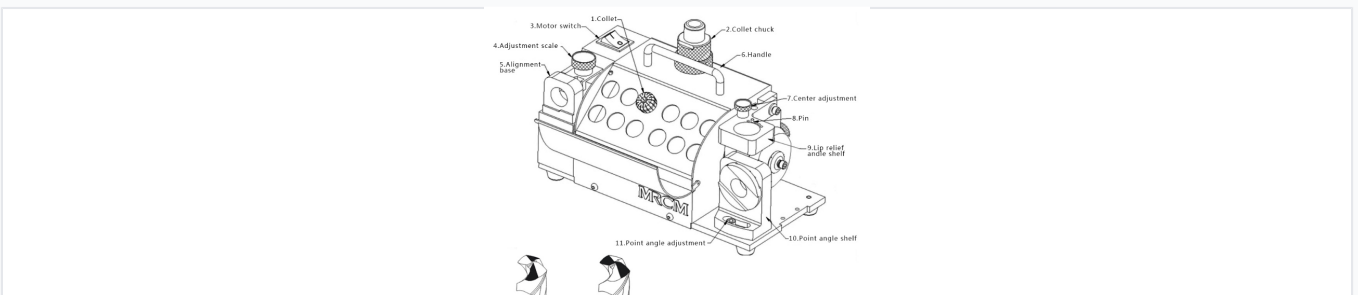

This drill bit re-sharpening machine offers accurate and rapid grinding with easy operation. Its economical price greatly reduces costs and improves usage.

## ADDITIONAL IMAGES

## Product Overview

Detailed view of machine components, including collet chuck, motor switch, and adjustment scales.

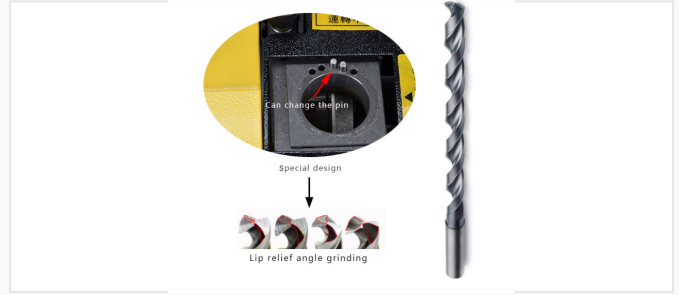

### High-Precision Drill Bit Re-Sharpener Machine

This high-precision drill grinding machine is designed for rapid and accurate re-sharpening of drill bits, requiring no specialized skill for operation. It features a robust DC motor for stable, powerful performance and a diamond grinding wheel to ensure long service life and precise angle adjustment. By allowing for the adjustment of the central point size, this machine helps optimize the drill bit's cutting quality and significantly extends its operational lifespan, making it an economical choice for workshops and manufacturing facilities.

## Technical Specifications

Adjustable point angle settings for versatile grinding.

Specialized design features including lip relief angle grinding and adjustable pins.

Grinding Range	12 - 13 (1.5mm)
Point Angle	100° (95°) ~ 135°
Motor Power	120 W
Rotation Speed	4400 rpm
Power Supply	AC 220V

## Physical Dimensions

Dimensions	32 x 18 x 19 cm
Weight	9 kg

## Included Equipment

### Standard Collets

- 13
- 14
- 15
- 16
- 17
- 18
- 19
- 110
- 111
- 112
- 113

### Included Grinding Wheel

CBN (for HSS)

## Optional Equipment

### Optional Collets

- 12
- 12.5
- 13.5
- 14.5
- 15.5
- 114
- 115

### Optional Grinding Wheel

SD (for Carbide)
