

Dry Abrasive Sandpaper Sheets

Abrasive sandpaper sheets designed for dry sanding applications on wood, metal, and plastic. The sheets come in coarse, medium, and fine grits to suit different surface preparation and finishing requirements.

Product Overview

Professional Dry Abrasive Sandpaper Sheets

These versatile dry abrasive sandpaper sheets are engineered for efficient surface preparation and finishing tasks. Designed for compatibility with wood, metal, and plastic, they feature a durable backing that ensures consistent performance and extended service life. The assortment of grits makes these sheets an essential choice for both heavy-duty sanding and detailed hand-finishing work.
