

Dual Arm Laptop and Monitor Desktop Mount

This desktop mount combines a laptop tray with a dual-arm monitor mount, suitable for 13"-32" monitors. It helps clear desktop space and can be used in standing desk setups.

Product Overview

Ergonomic Dual-Display Solution

This dual-arm desktop mount is designed to optimize your workspace by supporting one monitor and one laptop simultaneously. Featuring a gas spring structure, it offers maximum flexibility for height, tilt, and swivel adjustments to promote better posture and reduce neck strain. The sturdy aluminum-alloy and steel construction ensures stability, while the integrated cable management keeps your desk clean and organized.
