

Dual Bay Rechargeable Battery Charger

This compact charger is designed for charging rechargeable batteries. It features a dual-bay design, allowing two batteries to be charged at the same time.

Overview

Dual Bay Charging Solution

This compact battery charger is engineered for efficiency, featuring a dual-bay design that allows for the simultaneous charging of two rechargeable batteries. Equipped with high-quality metal contacts to ensure optimal power transfer, the unit provides reliable performance for various standard battery sizes. Integrated LED indicators offer real-time status updates, making it a convenient and essential tool for maintaining your power supply.

Technical Specifications

Charging Capacity	2 bays
Charging Type	Simultaneous

Features

Key Features

- Dual-bay simultaneous charging
- LED charging status indicators
- High-efficiency metal contacts
- Compact and portable design

Compatibility

Supported Battery Types	Standard Rechargeable
