

Dual-Blade Utility Knife

This utility knife features both a folding blade and a retractable blade for diverse cutting applications. Its durable construction includes a blue and black handle providing a comfortable and secure grip.

Product Overview

Dual-Blade Versatility

This dual-blade utility knife combines a robust folding stainless steel blade with a precision retractable blade mechanism, providing maximum versatility for professional cutting tasks. The ergonomic blue and black handle is engineered to deliver a secure and comfortable grip during intensive use. Designed for durability and efficiency, this tool is the ideal solution for frequent cutting of cardboard, plastic, and various industrial materials.
