

Dual Fuel Portable Generator 2.0/2.5/5.0kW

This dual-fuel generator provides a reliable power source for various applications. Its robust engine is compatible with both gasoline and propane, offering flexibility in fuel options.

Overview

Versatile Power Solutions

This dual-fuel portable generator provides a robust and reliable electricity source suitable for various professional and emergency applications. Designed for flexibility, it operates on both gasoline and propane, ensuring you have power regardless of fuel availability. With a sturdy frame and integrated wheel kit, this unit is engineered for durability and easy transport across demanding job sites.

Performance

Power Output Options

2 kW Model 1	2.5 kW Model 2	5 kW Model 3
------------------------	--------------------------	------------------------

Technical Specifications

Fuel Compatibility	Gasoline, Propane
DC Output	12 V
DC Current	8.3 A

Features

Key Features

- Dual Fuel Operation
- Digital Performance Meter
- Battery Sensor Lamp
- Integrated Wheel Kit
- Heavy-Duty Frame
