Overview

Dual-Head Liquid Filling Solution

This dual-head filling machine is engineered for high-precision, automated liquid packaging across food, chemical, and cosmetic industries. Featuring a robust stainless-steel construction for all contact parts, it ensures hygiene and durability for liquids ranging from cooking oils to automotive lubricants. The piston pump mechanism allows for rapid, accurate filling across various container sizes, making it an ideal upgrade for small to medium-sized production lines seeking increased efficiency.

Technical Specifications

Filling Mechanism	Piston Pump
Number of Filling Heads	2
Contact Material	High-quality Stainless Steel

Certifications & Compliance

Certifications	ISO 9001, CE, UL, SGS
----------------	-----------------------

Applications

Suitable Industries

- Food Industry (Vegetable/Cooking Oil)
- Chemical Industry
- Cosmetics
- Automotive (Engine/Car Oil)
- Body Care Products
