

# Dual Port RJ45 and RJ11 Wall Plate

This wall plate features both an RJ45 data socket and an RJ11 telephone socket. It provides a clean and organized solution for both data and voice connectivity.

## ADDITIONAL IMAGES

## Product Overview

### Dual Port Connectivity Solution

This dual-port wall plate integrates both RJ45 and RJ11 sockets to provide a versatile solution for modern data and voice connectivity needs. Designed for seamless integration into residential and commercial interiors, it features high-quality polycarbonate construction and built-in pictograms for easy port identification. It supports reliable network performance for standard Ethernet standards and telephone connections, ensuring a clean and organized infrastructure.

## Technical Specifications

### Port Configuration

- 1x RJ45 Data Socket
- 1x RJ11 Telephone Socket

### Supported Networking Standards

Cat.4, Cat.5, Cat.5e, Cat.6

### Housing Material

High-quality polycarbonate plastic

## Logistics & Supply

### Monthly Production Capacity

**1000000 Pieces**

Supply Ability

### Standard Lead Time

45 days

## Packaging Details

### Packaging Configuration

Level	Quantity
Primary (Poly bag)	1 piece
Inner Packing	10 pieces
Outer Packing	100 pieces
