

Dumpling Stuffing Preparation Machine

This machine is designed to reduce meat, cabbage, and other vegetables into small particles. It is specialized equipment for processing fillings for dumplings and steamed buns.

Overview

Efficient Stuffing Preparation

This disc-type grinding machine is specialized equipment designed for the rapid preparation of dumpling and steamed bun fillings. It efficiently processes a variety of ingredients, including meats, cabbage, chives, mushrooms, scallions, and carrots, reducing them into small, uniform particles. Built for commercial use, this machine combines a robust motor with high-capacity processing to streamline kitchen operations.

Performance Metrics

Processing Capacity

300 kg/h
Capacity

Technical Specifications

Model Number	FDGY-300
Power Supply	220V, 50Hz
Motor Power	1.5 kW
Dimensions (L x W x H)	770 x 705 x 950 mm
Machine Weight	125 kg

Operational Details

Disc Rotating Speed	30 r/min
Cutter Rotating Speed	1400 r/min
Disc Diameter	600 mm
Blade Length	80 mm

Capabilities

Suitable Ingredients	Meat, Cabbage, Chives, Mushroom, Scallions, Carrot
