

DVD-R Recordable Media Disc

DVD-R media is designed for recording and storing digital information. It features a 4.7GB storage capacity, 120 minutes of recording time, and compatibility with 1x to 16x writing speeds.

Product Overview

High-Capacity Digital Storage

This DVD-R recordable media disc is designed for reliable digital information storage and archiving. Offering a standard 4.7GB capacity and 120 minutes of recording time, it provides ample space for multimedia projects and data backups. The disc is engineered for versatility, supporting a wide range of writing speeds from 1x to 16x, making it compatible with most multi-speed DVD recorders.
