

E-Ink Display E-Book Reader

This e-reader uses E-Ink electronic ink display technology. It is designed for reading novels and other digital content with low power consumption and eye health in mind.

Overview

Professional E-Reading Experience

This 6-inch E-Ink electronic paper reader provides a comfortable, eye-friendly reading experience designed for extended use. By utilizing e-ink technology without a backlight, it minimizes eye strain, making it ideal for reading e-books and newspapers. The device includes versatile features such as automatic bookmarking, layout switching, and background music support to enhance your digital library experience.
